Data Scientist f/m/d

XUND is a leading digital health scale-up that enables healthcare companies to digitize patient interactions and translate data into actionable insights.

It's our vision to improve the quality and accessibility of healthcare by bringing together medicine, technology, and a human-centered mindset. But we cannot do it alone: we need leaders, doers, and innovative minds to turn our vision into reality.

That is why we are looking for an ambitious, highly committed, and entrepreneurial team player who shares our **values of putting patients first, building an inspiring and open environment, and challenging the status quo.**

The Role

Join XUND as a Data Scientist and our efforts to build innovative healthcare solutions that reach millions of patients. Your expertise will help us build and validate models used in our software as a medical device products. You will work closely with medical experts, developers as well as business partners to bring value to patients and practicing doctors alike.

Your Responsibilities

- Build and validate statistical models to support patients and healthcare professionals

- Improve training and validation pipelines for medical devices

- Software development in a small and agile team

- Collaborate with medical experts, developers and sales to improve our products

Your Profile

- BSc or higher in computer science, statistics or related field

- +2 years of proven industry experience in data science or machine learning

- Extensive experience in software development with Python

- Experience with machine learning pipelines and databases (e.g. dvc, graph/relational databases)

- Resident in the EU and having a work permit

Nice to have

- Experience with building statistical models for medical applications

Your Benefits

- Embark on a journey with one of Europe's fastest-growing digital health scale-ups and make a real impact in a purpose-driven environment!

- Take on exciting challenges while working in a dynamic space where creativity and fresh ideas are always encouraged.

- Benefit from a dedicated training budget and professional development time, because we believe in growing together and supporting your skill-building journey.

- Enjoy the flexibility to work from wherever suits you best – whether that's your cozy home office, a café down the street, or one of our offices in Vienna, Budapest, or London.

- Join regular team events at each office and several company-wide celebrations throughout the year to connect with colleagues, share experiences, and create lasting memories.

- Be part of a vibrant, open culture with flat hierarchies and direct communication, where your voice matters and everyone's ideas are heard.

- Plus, office dogs! They're here to keep the vibes chill and remind us all to take a paws and relax.

The reference gross salary for Hungary is 1.800.000 HUF / month. Willingness to overpay is given and depends on the respective qualification and experience. On top of that, we also let all our employees participate in our Virtual Stock Option Plans (VSOPs), ensuring that they can directly benefit from our collective success.

At XUND, we know that innovation happens when different perspectives come together. Whether you're a coding whiz, a health enthusiast, a spreadsheet guru, or a creative problem-solver, we value what you bring to the team. If you're excited about this role but feel like you don't "check all the boxes," don't worry – we still want to hear from you! We're committed to fostering an inclusive space where everyone's contributions are valued and respected, and we encourage candidates of all backgrounds, identities, and experiences to apply. If you're eager to make an impact, we'd love to hear from you!
